

# 2016 RECYCLING GUIDE

Since 2015, the Cities of Lakeland and Lakeland Shores have recycled over 450 tons of materials which would have otherwise ended up as waste in the landfill. Instead, our waste was turned into useful resources. Congratulations to our well-informed and thoughtful residents. What an amazing accomplishment.

As the New Year nears the City of Lakeland Shores is looking for even more ways to save items from a wasteful fate and it all starts with you!

**TIP:** When out on a hiking trip or just a stroll in the community, be sure to bring along a knapsack to carry any recyclable or trash items for times when there is not a trash or recycling bin nearby.

## PLEASE RECYCLE THESE ITEMS

Paper, Plastic (not #3 or #6), Glass, Tin and Aluminum  
All materials go into the recycling cart loose and mixed.

No need for sorting.

The City of Lakeland and Lakeland Shore's recycling provider is Maroney's Sanitation
